Batman vs Superman

Who is the greatest? Some people say that Superman is the better superhero because he has amazing powers. Other people say Batman is better because he had to learn how to fight.

Some people think Batman is amazing because he is clever, but Superman only uses his powers. Lots of people say Batman has a better costume than Superman. Batman has a big belt, a tight body suit and an amazing mask but Superman's costume is only colourful.

If I had to choose who is the best, I would choose Superman!
