18th September, 2020

Dear Parents,

We would like to thank you for your ongoing understanding during this time. We have had a number of parents unsure about what to do if their child has Covid-19 symptoms. Your child only needs one (or more) of the following symptoms:

- A high temperature (38°C+)
- A new persistent cough or at least 3 coughing episodes in the last 24 hours.
- A loss of taste and/or smell

If they, or anyone in your household, has any of these symptoms that person will need to be tested and you will all need to isolate, until you have had test results. Please do not send siblings into school, as they should be isolating.

If your child has any of the symptoms, you must notify the school and then book a test. Your family will need to isolate until you get your results. Please notify the school of the result as soon as possible. If it is negative, your child (and any siblings) may return to school. If it is positive, the child must isolate for 10 days from when the symptoms first appeared, but the rest of the family must isolate for 14 days.

As winter nears, we will be entering the common cold season. If you are unsure about your child's symptoms, we have attached below, guidance from Luton Borough Council.

As it stands, we have not had a positive test in the school community. This is because of how vigilant we are all being, and this is vital for us all to be safe.

Yours sincerely,

Two handwritten signatures in black ink are shown. The first signature is 'Miss Sutton' and the second is 'Mrs Bains'.
